Gresik, East Java 61156

Skills

- SQL (MySQL, BigQuery)
- Python (Pandas, NumPy, Seaborn, Matplotlib)
- Excel
- Power BI
- Tableau
- Git & GitHub

Projects

BIKESHARE STATION EXPANSION: 656K+ TRIP DEMAND ANALYSIS ACROSS NYC

- Analyzed 656K+ NYC bike-share trips using **BigQuery SQL** across 5 **joined** tables including geographic boundaries and weather data
- Applied spatial analysis (ST_WITHIN, ST_GEOGPOINT) to enrich trip data with ZIP codes, boroughs, and neighborhoods
- Identified Lower East Side as highest-demand destination (439K trips) with Subscribers accounting for 91.4% of total usage
- Built 3-tab interactive **Tableau** dashboard covering seasonal trends, geographic demand, and user behavior analysis

BANGKALAN SOCIOECONOMIC ANALYSIS: MAPPING REGIONAL DEVELOPMENT PATTERNS ACROSS COVID-19 PERIOD

- Analyzed socioeconomic indicators (unemployment, poverty, HDI, economic growth) in Bangkalan Regency using BPS public data (2016–2020)
- Identified regional development patterns before and during COVID-19 period through trend and comparative analysis
- Built 4-panel **Power BI** dashboard with **KPI cards**, **trend charts**, and contextual highlighting to improve data readability
- Applied data storytelling principles including visual hierarchy and axis scaling for clear insight delivery

Training / Certifications

Google Business Intelligence Certificate

Google (via Coursera)

AWS re/Start Cloud Computing Program

Orbit Future Academy (in collaboration with Amazon Web Services)

- Completed hands-on labs in cloud computing environment
- Practiced SQL for data querying and data manipulation
- Used Python for basic data processing and scripting
- Learned database fundamentals and relational data concepts
- Exposure to AWS cloud service and infrastructure basics

Education

BACHELOR OF DEVELOPMENT ECONOMICS – Universitas Trunojoyo Madura – Bangkalan, Indonesia
